

**MAYLAND COMMUNITY COLLEGE**  
**Welcomes You To:**

**MAT 070.20 Introductory Algebra**  
**4 Credit hours – 5 contact hours**  
**Fall 2007**

**Note:** THESE HOURS **DO NOT** COUNT AS COLLEGE CREDIT TOWARD  
GRADUATION NOR ARE THEY USED IN CALCULATING YOUR GPA.

**Course Description:**

This course establishes a foundation in algebraic concepts and problem solving. Topics include signed numbers, exponents, order of operations, simplifying expressions, solving linear equations and inequalities, graphing, formulas, polynomials, factoring, and elements of geometry. Upon completion, students should be able to apply the above concepts in problem solving using appropriate technology.

**Pre-requisites:** Mat 060      **Co-requisites:** RED 080

**Instructor Information:**

<b>Instructor:</b>	Tiffany Williams
<b>Office Location:</b>	Math Lab
<b>Telephone Number:</b>	828-765-7351, ext 308
<b>E-mail Address:</b>	tnwilliams@mayland.edu
<b>Office Hours:</b>	I maintain an open door policy for office hours and, if I am not in class or in a meeting I am available to you. In particular, please avail yourself of any of my posted office hours. Additional office hours are also available by appointment.

**Course Information:**

<b>Meeting days and time:</b>	Monday, Wednesday 6:00 p.m. – 8:20 p.m. in Room 213.
<b>Required Text(s):</b>	Larson, Ron. Elementary Algebra – Student Support Edition. 4th Edition. Boston, New York: Houghton Mifflin Company, 2008
<b>Required supplies:</b>	Required material for this class is a TI-83 graphing calculator. Lab packet (available through the bookstore)

**Course Objectives:**

*This course is a study of variables and polynomials, linear equations and inequalities, applied problems and solving equations, multiplying and factoring polynomials and fractional algebraic expressions and equations. Students will:*

1. Increase ability to communicate mathematical concepts and problems to others effectively, clearly and accurately in speaking and listening situations needed for college, personal and work successes.
2. Increase ability to communicate mathematical concepts and problems to others in writing and reading situations needed for college, personal and work successes.

3. Increase ability to think logically, critically, and creatively to evaluate evidence and reach a conclusion and select the most appropriate method of solution.
4. Increase in application of basic computer skills.
5. Increase in application of fundamental math skills to solve application problems.
6. Work effectively both independently and collaboratively.
7. Better understand and respect the diversity of various world groups from both historical and contemporary contexts.
8. Use a graphing calculator accurately and appropriately.

### **Mission and Competencies for the General Education Core at Mayland Community College:**

Mayland Community College's General Education core courses will provide the essential body of knowledge and skills that enable all degree-level students to perform competently as employees and as contributing members of society.

Graduates of all degree programs at Mayland Community College will have completed the general education core. That core encompasses the essential knowledge and skills that enable all degree-level students to perform competently as employees and as contributing members of society. Upon completion of the general education core, students will be able to demonstrate the following:

1. Effective communication in speaking and listening situations needed for college, personal, and work successes
2. Effective communication in writing and reading situations needed for college, personal, and work successes
3. Logical, critical, and creative thinking to evaluate evidence and reach a conclusion
4. Application of basic computer use skills
5. Application of fundamental math skills
6. Basic awareness of the diversity of various world groups from both historical and contemporary contexts

### **Attendance Policy/Tardiness/Make-Up Work:**

Roll will be taken and you are expected to be in class each time it meets. Coming in late or leaving class early is counted as an absence. You will be allowed one cut without grade penalty. If you must miss a class you are responsible for obtaining notes, arranging for help on any material that you do not understand and for turning in any work due in a timely manner. No absence is excused beyond the one allowed cut except for personal religious holidays (see me in advance). Any student with 4 or more absences will be penalized 50 grade points for this class. Missed class time can be made up in the tutoring lab or with an assigned tutor (time must be documented by the tutor).

**Note:** If a student has not been in contact with the instructor and has not attended class for a consecutive two-week period, an administrative withdrawal will be submitted by the instructor.

The final grade will be determined as follows:

5 chapter tests @ 100 points each	500 points
Comprehensive final @ 200 points	200 points
Attendance @ $\approx$ 1.5 point per class	50 points
Quizzes	100 points
Labs/homework	<u>50 points</u>
Total points	900 points

**Grading Scale:**

<b>A</b> = 832- 900
<b>B</b> = 760 - 831
<b>C</b> = 688 - 759
<b>D</b> = 630 - 687
<b>F</b> = 629 or below

**Note:** This course has a required comprehensive final exam worth 200 points. Students **MUST** score a passing grade of 70% or better on the final in order to pass this course. **NO EXCEPTIONS WILL BE MADE TO THIS RULE.** Passing the final does not ensure passing the course. Your grade must average out to passing according to the scale above.

**Academic Standards/Student Expectations/Ethics:**

**Assignments:** All homework will be reviewed each day for the previous class. Labs are done in class, but may be made up.

**Tests:** There will be **no makeup tests** given except in extreme cases, and at my discretion. All work must be shown to receive partial credit on any test. Please use only pencil or erasable pen.

**Late Work:** I will not accept any late work for any reason!

**Behavior:** Students are expected to behave appropriately in class. Any excessive talking, profanity, leaving class or other inappropriate behavior will result in the student being asked to leave the class. A conference with student services will be required to return to class. Any one cheating on a test or quiz will be given a zero for the assignment and referred to the Academic Dean for disciplinary action.

**Incompletes:** Incompletes will be granted **ONLY** in extreme circumstances and at my sole discretion. If an incomplete is granted, it is the student's responsibility to see that all aspects of the syllabus are completed prior to May 7, 2008. There will be no reminders sent or phone calls made to prompt the student to cure the incomplete. If the incomplete is not cured by the deadline above, the incomplete will automatically convert to an F for the course, and the entire course must be repeated.

**Withdrawal Dates:** If you wish to audit this course, you must file a drop/add form with the registrar prior to August 24<sup>th</sup>. If you cannot complete the requirements of this syllabus, you must withdraw from this class by filing a drop/add form with the registrar. Otherwise you will receive a grade of F for the course. You can unconditionally withdraw from any class without grade

penalty prior to September 25<sup>th</sup>. From September 26<sup>th</sup> through November 1<sup>st</sup> you can withdraw with a grade of WP or WF to be determined by the instructor. You may not withdraw from any class after November 1<sup>st</sup>. Exceptions to this deadline will be made only in cases of extreme emergency (such as serious illness or family emergency). This is a school wide Mayland Community College policy.

**Inclement Weather Procedures:** Students must use wisdom and discretion in case of inclement weather considering the geographic area in which we live. While this is college and students are expected to attend class, it is not advisable for students to risk bodily harm or property damage to attend. If students must miss classes due to weather or for some other excused reason such as a doctor's appointment or sickness, I will trade documented tutoring time for class time. This must be time with an assigned tutor, the math lab, or me.

It is possible that day classes can be cancelled, but night classes will be held, or vice versa. It is necessary that you either call the school or listen to the radio stations that report school closings to determine whether or not class is being held on days when the weather is uncertain. In the event of inclement weather, Mayland will close night classes.

**Additional Information:**

Any student requesting special accommodations for this course due to a disability should apply for services through the SOAR Office or the Counseling Center, which will document the disability. A counselor will then help determine which accommodations, if any, the student needs for success in this course.

**Disclaimer:** While I have attempted to be as thorough as possible with this syllabus, course procedure may vary from this outline to meet the needs of this particular group. All dates contained in this syllabus are subject to change due to the weather and/or the discretion of the instructor.

**Important note:** Mayland Community College is now a tobacco free environment. This includes all smoking and smokeless tobacco.

**ASSIGNMENTS**

**Course Outline/Weekly Topics**

<u>Date:</u>	<u>Sec.:</u>	<u>Problem numbers:</u>	<u>Lab: TBA</u>
Aug. 20	Sec. 1.1	1 through 77, every other odd	
Aug. 22	Sec. 1.2	1 through 89, every other odd	
Aug. 22	Sec. 1.3	1 through 97, every other odd	
Aug. 27	Sec. 1.4	1 through 161, every other odd	
Aug. 27	Sec. 1.5	1 through 117, every other odd	
Aug.29	Review		
Sept. 5	Test 1		
Sept. 10	Sec. 2.1	1 through 81, every other odd	
Sept. 10	Sec. 2.2	1 through 149, every other odd
