

## Elementary Education

### Our program offers:

- Excellent Teacher Preparation
- Accessible Mentors
- Academic Distinction
- Praxis I and II Support
- Teaching Experience
- Employment Contacts
- Highly Qualified Faculty

Our faculty has over 100 years of combined public school teaching experience!

### Fully Accredited by:

- National Council for the Accreditation of Teacher Education
- Southern Association of Colleges and Schools
- North Carolina Department of Public Instruction

“The Elementary Education program has allowed me to gain a better understanding of what I want to do in my future career. One of my passions is working with all different ages of children, and teaching them things they have never thought of or experienced before. I have definitely learned how to accomplish this thanks to the program, and most importantly, the professors. I have had so many positive experiences in this program!”

Josh Kurtz '10
