

Mayland Community College Institutional Goals

2009-2012

1. Develop a Learning College Culture

- A. Develop and instill the concepts and vocabulary of the Learning College to all learners of the Mayland community.
- B. Incorporate the soft skills into the learning experiences of all MCC students.
- C. Partner with other colleges for advanced learning on our campus.
- D. Provide quality professional development.
- E. Provide state-of-the-art learning opportunities through technology.
- F. Evaluate and assess learning opportunities, programs and services.

2. Promote Community and Global Relations

- A. Develop and perpetuate coalitions within the college, the community, the state and globally.
- B. Play an active role in economic development in the community and for all learners.
- C. Work with the public schools to meet all students' educational needs.
- D. Promote the institution, both internally and externally, through proactive communications.
- E. Provide and promote global education opportunities.

3. Promote Flexible Instructional Programs

- A. Develop new and expanded programs as needed in the community.
- B. Provide more programming specific to the needs of an aging population.
- C. Identify potential "green" programs of the future that will provide good wages and benefits, and meet the needs of the future workforce.
- D. Offer flexibility in serving our various constituent learners.

4. Provide Support Services to Learners and Community

- A. Identify and develop new markets, needs and ways to serve.
- B. Facilitate learning through all services.
- C. Promote a safe and supportive environment.
- D. Tell Mayland's Story in numerous ways.

5. Procure and Allocate Essential Resources

- A. Cultivate new scholarship donors.
- B. Provide new/additional facilities.
- C. Provides adequate resources for all divisions and programs.
- D. Increase funding building and grounds maintenance and operations.
- E. Seek energy grants or programs for new heating and cooling systems.
- F. Develop a culture of financial conservation, sustainability, and energy efficiency.
