

Memorandum of Understanding

Mayland Community College

Financial Aid

2010~2011 Award Year

Mayland Community College has embraced the Learning College concept in order to further engage students and employees in enhanced learning opportunities throughout all areas of college life. Mayland Community College wants to guide students toward a brighter future through the use of technology, personal responsibility, decision-making, self-reflection, interdependence, and other lifelong learning skills that will prepare them for success in their jobs, satisfaction in their lives, and responsibility to their communities. Therefore, in an effort to assist students in the areas of personal responsibility, decision-making, and self-reflection, we offer Financial Aid advising to assist you with your financial needs.

I have been counseled about the rules and regulations concerning my financial aid. I have read and been offered the opportunity to ask questions concerning the rules and regulations of my financial aid. The Department of Education has set forth guidelines, regulations and requirements that I must keep if I agree to accept my financial aid award.

By signing this I am agreeing to adhere to these guidelines, rules and regulations set forth by the U.S. Department of Education, the state of North Carolina and Mayland Community College's Foundation concerning my financial aid.
