

ARTICULATION AGREEMENTS

Articulation agreements between Mayland Community College and certain four-year institutions allow students who complete specific Associate in Applied Science (AAS) degrees at MCC to transfer to these institutions without significant loss of credit. These A.A.S. degrees are not considered “traditional” transfer degrees however, with what is classified as a “2 plus 2” agreement, a student can complete the AAS degree in approximately two years, transfer to a four year college/university, and spend approximately two more years in order to complete a Bachelor’s degree.

Students are strongly encouraged to discuss their transfer interests with their MCC academic advisor, MCC transfer counselors, and with the representatives of the intended institutions of transfer. These individuals can work with interested students to ensure a smooth transfer. MCC partners with the following colleges/universities to provide transfer agreements for students pursuing certain AAS degrees.
